## Great success in Denmark!

With the winds blowing strong and the waves breaking hard, Klitmoller seems to be one of the hardest stops of the PWA world tour. The more proud we are about the results of our team riders Kevin Mevissen and Kenneth Danielsen.

Both, Kenneth and Kevin could reach their best results all-time. On his Barracuda 84 production board Kenneth Danielsen could work his way past his opponents and the local legend could reach a an outstanding 6th place. Hard on is heels was team-mate Kevin Mevissen, who sailed each heat like it was his last, hitting the ramps with as much as speed as needed to reach a fantastic 7th place. Kevin took down some of the finest international competitors on his Rave 70 in combination with the brandnew F2 Concept 3,8 and 4,3 sail.

Kevin and Kenneth achieved the best wave results in the past 7 years of F2 participating in Wave-Competitions. Congratulations to our wave riders from the entire F2-Family.

### The boards of success:

Board	Length	Width	Volume	Weight
84	223	58	84	6,3

Board	Length	Width	Volume	Weight
70	226	53	70	5,9
